Do you want to help your child improve his/her literacy and numeracy skills at home?

Our school subscribes to **ABC Reading Eggs/Eggspress** and **Matific** – two online resources designed to support powerful learning in Reading and Mathematics. Both programs provide an opportunity for your child to improve his/her literacy and numeracy skills in an engaging and fun way.

ABC Reading Eggs/Eggspress makes reading interesting and engaging with interactive online reading activities to build comprehension skills.

Matific is designed to support our students' learning in Mathematics and includes targeted maths lessons as well as game-based activities to make learning enjoyable.

Each year our school pays \$20 per child so that all of our students can use these programs at school and at **home**, if the internet is available.

Your child has their own username and password in order to access these programs at home. This information is provided inside your child's reading/student diary. *It is important that you do not change the password.*

Reading Eggs can be found at www.readingeggs.com.au and Matific can be found at www.matific.com (**click on the login tab on each website**).

If you require further information about either program or login details, please contact your child's class teacher.

Please note that students will no longer have access to Mathletics from the beginning of March 2019.
